# WHY ÜNTEL?

- ✓ Over 50 years of manufacturing experience and know-how
- ✓ Tailored and reliable solutions for your projects
- ✓ Extensive product portfolio – over 24,000 cable types
- ✓ High-quality cable manufacturing
- ✓ Use of premium raw materials sourced from reputable manufacturers in production
- ✓ Over 300 international certifications and approvals
- ✓ Competitive pricing
- ✓ Flexible payment options
- ✓ Extensive stock product portfolio
- ✓ Short delivery lead times
- ✓ Low minimum order quantities with short lengths
- ✓ Prompt response to your requests and inquiries
- ✓ Customized production and flexible solutions tailored to customer needs
- ✓ A state-of-the-art cable manufacturing facility equipped with advanced technology and modern machinery
- ✓ A perspective focused on continuous improvement and development
- ✓ Sustainable R&D initiatives
- ✓ Testing laboratories equipped with advanced instruments and a team of expert engineers
- ✓ Renowned and reliable references worldwide
- ✓ Listed among the “privileged and approved suppliers” of many esteemed organizations
- ✓ Fast delivery across six continents
- ✓ After-sales services and a trusted approach
- ✓ Professional customer support and strong collaboration opportunities
- ✓ Product Liability Insurance

# ABOUT US

ÜNTEL KABLO, one of the world's leading cable manufacturers, was established in 1972 in Turkey. With over 50 years of manufacturing experience, state-of-the-art facilities, and a highly specialized team, Üntel Kablo is committed to producing only the best.

Equipped with rubber and equivalent elastomer compound production technologies, Üntel Kablo offers a product range of more than 24,000 types, extending up to Medium Voltage (MV) cable groups. Exporting its industrial cables to over 100 countries across six continents, Üntel Kablo delivers energy to demanding industrial applications worldwide, including shipbuilding, airport runway lighting, railway signaling, oil and gas drilling platforms, mining and tunneling, welding machines, and cranes. By evaluating customer demands and expectations within the framework of sector-specific requirements, Üntel Kablo also designs and manufactures tailor-made cable solutions for your projects.

Since the end of 2009, Üntel Kablo has been operating in its new production facility covering a total of 43,000 m<sup>2</sup>, of which 32,000 m<sup>2</sup> is enclosed.

With an annual production capacity of 4,000 tons of compound, 3,000 tons of copper drawing, and approximately 30,000 tons of cable, the company continues to strengthen its global presence. Supported by advanced technology, machinery sourced from prestigious manufacturers, a skilled team, and a robust ERP system, Üntel Kablo is dedicated to ensuring absolute customer satisfaction.

Üntel Kablo's quality laboratories, equipped with the latest measurement and testing technologies, are accredited by internationally recognized institutions. The company operates under a globally acknowledged management system that complies with ISO, IQNet, and TSE quality standards. With quality as a core principle, Üntel Kablo has obtained more than 300 product certifications from globally respected organizations such as VDE, KEMA, ABS, UL, BV, DNV, RINA, and TSE.

Guided by the principles of premium quality and 100% customer satisfaction, Üntel Kablo's greatest value lies in its expert and experienced team, delivering superior products and effective solutions tailored to customer and industry needs.

**ÜNTEL KABLO**

## INDUSTRIES WE SERVE AND OUR PRODUCT RANGE

- 1** Airports  
Airport Runway Lighting Cables  
400 Hz Power / Supply Cables  
Apron / Jet Bridge Control and Power Cables
- 2** Railways  
Railway Network / Metro Systems Power and Signal Cables  
Railcar Manufacturers  
Locomotive Manufacturers
- 3** Marine Industry  
Shipyards and Shipbuilding Companies  
Port and Marina Constructions  
Submarine Power Cables  
Shore Power Cables
- 4** Offshore Industry  
Oil Platforms / Drilling Wells  
Drillships  
Floating Production, Storage, and Offloading Vessels (FPSO / FSO)  
Offshore Wind Turbines
- 5** Defense Industry  
Naval Shipyards  
Military Vehicle, Machinery, and Equipment Factories
- 6** Crane Systems and Applications  
Crane Manufacturers  
Drum Manufacturers  
Port / Quay and Ship Crane Manufacturers  
Spreader (Container Handling) Manufacturers  
Handling Equipment / Grab / Clamshell Bucket Manufacturers  
Vertical Lift / Facade Elevators
- 7** Mines  
Surface Mines – Open-Pit Mines  
Underground Mines – Mining Pits
- 8** Tunnels  
TBM – Tunnel Boring Machines  
Tunnel Constructions  
Tunnel and Metro Cable Applications
- 9** Industrial Facilities  
Petrochemical Plants  
Refineries  
Pipelines  
Oil and Gas Processing / Storage Plants and Terminals  
Drilling Rig Cables  
Storage Tanks
- 10** Power / Electricity Plants  
Wind Turbines  
Solar Power Plants  
Hydroelectric Power Plants  
Geothermal Power Plants  
Thermal Power Plants  
Natural Gas Combined Cycle Power Plants  
Fuel-Oil / Diesel / LNG Thermal Power Plants  
Solid Waste and Biogas / Landfill Gas Power Plants  
Transformer Substations and Switchyards
- 11** Factories  
Iron and Steel Plants  
Cement Plants  
Chemical Production Facilities  
Wastewater Treatment Plants  
Glass Factories  
Paper Mills
- 12** Machinery and Equipment Manufacturers  
Submersible Pump Manufacturers  
Generator Manufacturers  
Transformer / Mobile Transformer Manufacturers  
Power Tool Manufacturers  
Electric Vehicle Manufacturers and Charging Stations  
Household Appliance and White Goods Manufacturers  
Battery / Mobile Energy System Manufacturers  
Welding Machine Manufacturers  
Industrial Machinery Manufacturers  
Mining Machinery Manufacturers  
Agricultural and Irrigation Machinery Manufacturers  
Elevator Manufacturers
- 13** GSM Infrastructure Contractors
- 14** EPC Contracting Companies  
Industrial Facilities  
Power Plants  
Petrochemical Plants  
Energy Production Facilities  
Contracting Sector  
Infrastructure Works
